

GOLDEN DEMUF

FUNGICIDAL AND ALGICIDAL WASH FOR CONCRETE AND MASONRY

DESCRIPTION

GOLDEN DEMUF is a liquid, ready to use, based on biocide with special algaecides – fungicide, for application on concrete, rendering and masonry substrates, which are to be coated with **GOLDEN LASTIC**, **GOLDEN LASTIC RUV**, **GOLDEN LASTIC SYS 1.2.3.**, **GOLDEN RASOFLEX**...

ADVANTAGES

- Eliminates all spores of fungi, bacteria, or algae.
- Does not influence the adhesion of following finishing coats.
- Is not visible.

USE

- As preventive fungicidal and bactericidal washing product before the application of coatings on masonry, renders or concrete subjected to formation of biodeteriogens.

APPLICATION

Remove all incoherent particles from the substrate like oils, greases, or previous coatings.
Apply next **GOLDEN DEMUF** by brush or low pressure spray equipment, respecting the safety instructions.
Leave drying completely and than remove after 24 hours residues and death growth. This treatment can be done efficiently by using mechanical tools, scraping, pressure washing or hard bristles.
Repeat the treatment with **GOLDEN DEMUF** several times in case of severe contamination.

TECHNICAL CHARACTERISTICS (Typical values)

- Density: ~1,02 Kg/l
- Colour: Transparent
- pH: ~6

REMARK

Do not use when the temperature is below + 5°C.

CONSUMPTION

Average consumption is about 150÷200 gr/m² but is strongly dependant on the substrates porosity.

PACKAGING

Jerry cans of 20 kg, 5 kg.

STORAGE

Store closed and protect at temperature higher than +5°C, and less than +40°C. Keep elevated from ground level.

PRECAUTIONS

The product is irritant. May irritate eyes and cause sensitisation by skin contact.
Read carefully the instructions on the packaging.
In case of doubt, check the Material Safety Datasheet.

The data are based on our practical experience and laboratory test. We assume no responsibility for any negative results from improper use that are due to factors unrelated to the quality of the product.
